KH500 Versa-Loader

Versa-Loader KH500

TRACTOR COMPATIBILITY KEY: 3400 | 4500

The KH500 Versa-Loader functions much as you would expect a loader to do, but has more versatility than many other similar machines. The KH500 can quickly be changed from a loader, bucket or fork to a post hole digger or tree auger. Three different accessories fit the Versa-Loader. Accessories can be removed and replaced in just minutes.

Note: KH500 loader attachment can not be used with:
(a) The Ventrac Cab
(b) Dual Wheels
