

DROP SPREADER

NA132

DROP SPREADER

Model NA132

Dimensions

Overall Width	35 inches (89 cm)
Overall Height	24 inches (61 cm)
Overall Length	17 inches (43 cm)
Weight	125 lbs (56.7 kg)
Material Capacity (Weight)	100 lbs (45 kg)
Material Capacity (Volume)	1.3 ft ³ (0.05 y ³)
Drop Rate	2.5–15 lbs/min (1.1–6.8 kg/min)
Drop Width	29 inches (74 cm)

*All specifications subject to change without notice or obligation

The Ventrac SSV Sidewalk Drop Spreader is the ultimate tool for spreading an array of deicing materials with precision flow control. Designed with a narrow frame and a 29" drop pattern, this spreader is ideal for spreading material on sidewalks and other narrow walkways using the Ventrac SSV.

The stainless steel hopper prevents premature failure due to rust and corrosion. The innovative agitation system prevents material bridging and eliminates the need for a traditional, noisy vibration motor.
