All specifications subject to change without notice or obligation

60"

The Ventrac RV602 Vacuum Collection System is for grass and leaf collection, and it consists of three primary components:

1. The bin assembly - mounts to the rear of select Ventrac 4520 + 4500 + 4100 + 4200 tractors

2. The suction/blower system - powered by a 10HP B&S Vanguard engine with electric start for efficient pickup and superior performance

3. High lift mechanism - hydraulically raise the collection bin up to 60 inches and dump to unload the contents into a garbage bin or trailer

STANDARD FEATURES

- All steel construction
- Hydraulic lift and dump
- Electric start engine
- Collection boot is quickly and easily attached to the mower deck
- Handle on hose and hose end for ease of vacuuming flower beds, etc
- Storage Stand

Optional Accessory:

- Docking Station

Compatibility Notes:

The RV602 collection vacuum can be used on a power unit equipped with the current canopy model (70.4169), but not the former canopy model (70.0098).

The RV602 is not compatible with KW series cabs.

The RV602 collection vacuum can not be used on a 4500 power unit equipped with directional/hazard lights.

Recommended for use with 4100 power units serial number 4100-*EC1501 and higher, 4200 power units serial number 4200-*EB2555 and higher, and all 4500 power units.

Not available for sale in California.
